**Shanghai's night**

## Shanghai's night

RGBGames' Shanghai Night won top prize in the slot tournament held at Asia's GEM, the gaming industry expo and congress held in Manila recently.

Shanghai Night is a game with strong appeal to Asian players in general and ethnic Chinese players in particular because it takes as its theme Shanghai's gun slinging culture during the first capitalist boom before the 1949 communist revolution.

That appeal is magnified by Shanghai Night's game style, says Malaysia-based RGBGames. Players' winnings are tripled during free spins and the free spins feature can be retrigged during those gratis games.

Shanghai Night's stable mate, Legend of Sparta, won a runner up prize in the same competition, says the company.

It is based on the legendary Spartan warriors of the ancient Hellenic World. As with Shanghai Night, free games can be triggered within free games. During those free games, all wins are doubled.
