## POKER CONSTELLATION.

### Introduction

Classical video poker game with a single deck of cards.  
Two hands are available in every play.

### Types of games

POKER CONSTELLATION allows the owner of the gaming machine to set up the number of units (52 or 53 cards) in order to select among three different types of games: JACKS OR BETTER, JOKER POKER or DOUBLE BONUS POKER.

The player can gamble every prize obtained in the base game at the Double or Nothing feature (playing the highest-scoring card).
