

Next Level Shuffling Technology!

Introducing the new, show-stopping *MDX™* multi-deck shuffler. Not only does *MDX* have the capacity to shuffle one to 10 decks of cards, it is also the first device on the market capable of sorting multiple decks of cards, with a one to 10 deck sorting capacity. This advanced shuffling technology also eliminates edge sorting by randomly rotating the feeder elevator 180 degrees throughout the shuffle, to remove the chance of sorting the card edges in a predetermined way. Featuring integrated wheel technology, patented card recognition, faster shuffling and card sorting, and a convenient horizontal output, *MDX* is redefining the standard for multi-deck shuffling.

BENEFITS

- Shuffles one to 10 decks
- Sorts one to 10 decks
- Eliminates edge sorting
- Integrated security card
- Convenient horizontal output
- On-board printer
- Improved serviceability
- Mobile mounting cart
- No lifting

SPECIFICATIONS

- Power Requirements
 - 100-120 VAC, 200-240 VAC
 - Max. 2.0A; 50 / 60 HZ
- Dimensions
 - L 27.2"x W 14.1"x H 43.7" / 33.1"
 - L 690,88 mm x W 358,14 mm x H 1099,82 mm / 840,74 mm
- Weight
 - 83.11 lbs. / 37.7 kg
